

# aline

acoustic wall panels  
designed by By May.

## Aline

The pattern on the module creates a bold relief on the wall, this gives character to the interior as well as sound reduction. Depending on how the module is placed different patterns can be made.

Design: By May Stockholm

Material: 80% recycled wood and PET material and 20 % hemp fibers.

Standard size: w 43 cm x h 58 cm.

Mounted with velcro attachments.

Produced by Yeseco, Finland.
