

soft sound

Acoustic wall panels
Design by Anna Spakowska

Waves

Farfalle

Gem

Soft Sound is a series of handmade 3D acoustic panels.

Their role is to accent the beauty of the space and provide acoustic improvement at the same time. It is a perfect solution for public as well as private spaces where each design pattern can bring a unique character to the room.

Through its sculptural value with different lights settings (day or night) Soft Sound gives incredible variety of effects. Particular lighting can transform the mood of the space and from each angle is perceived differently.

Each shape came to life from a simple form of a circle and is stitched to a panel by hand.

Soft Sound panels are made with a high quality 100% wool felt and cotton attached

to a wooden frame using no glue or any artificial substances making it a fully sustainable product. To broaden the colour spectrum a polyester modules version is also available making it possible to either morph with the space or accentuate it and became an art piece in itself.

The size of the panel can be easily adjusted to the space needs covering the whole wall, or ceiling, or act as a beautiful painting panel.

The material is simple to maintain by using soft brush or vacuum cleaner.

PATTERNS (currently available)
Farfalle, Gem and Waves.

COLOUR PALETTE (currently available)
Warm White, Elegant Gray and Red Wine.

Different colours combination within a panel are available as a custom made option.

SIZES

A basic panel size measures 1 meter by 1 meter.

Depending on the particular pattern a 1 by 1 meter panel might not be an exact square as a result of the modules overlapping the frame.

The overlap might reach up to 12 cm on each sides depending on the chosen pattern.

Custom made sizes panels are possible which involves change in pricing.

MATERIALS

3 mm 100% wool (optionally polyester), felt 100% cotton, 100% linen, wooden frame, cotton embroidery floss.

DELIVERY TIME (within Europe)
5 - 8 weeks depending on the size.

MAINTNANCE

Clean gently with soft brush or a vacuum cleaner. Do not wash or clean with water or any detergent.
